

Public Health Programs for Schools in Sacramento County

Sacramento County Public Health (SCPH) is part of the larger public health system in the Sacramento region. In addition to state and local public health agencies, the public health system includes healthcare, public safety, human services, non-profit, education, recreation, economic, philanthropic, and environmental agencies. SCPH is comprised of over two dozen unique programs. The programs featured on this page have components specifically geared towards schools, school-aged children, and/or their families. Reach out to a program directly to learn more or e-mail the SCPH Schools Team at SCPHschools@saccounty.net to get connected!

Communicable Disease Control | (916) 875-5881

Disease surveillance, disease & outbreak investigations, contact tracing & follow-up, prevention of disease transmission, & education.

Immunization Assistance | (916) 875-7468 | immunize@saccounty.net

Consultation & resources for parents, community-based organizations, medical providers, daycare providers, & schools regarding immunizations & immunization laws. Conducts childhood, COVID-19, and flu immunization clinics throughout the county.

Obesity Prevention | (916) 875-5869

Training, technical assistance, & education addressing nutrition & physical activity behaviors through policy, system, & environmental changes. Serves schools with a total free and reduced price meals percentage of 50% or greater and early child care sites that qualify for the Child & Adult Care Food Program. Services for school/district partners, students, parents, & stakeholders working in school/district nutrition & physical activity-related projects.

Oral Health | (916) 875-5869 | www.saccountyoralthhealth.net | oralhealth@saccounty.net

Oral health education resources for teachers, training and technical assistance for compliance with the Kindergarten Oral Health Assessment requirement, and dental care resource & referral assistance for parents, school staff, & health professionals.

Sexual Health Promotion | (916) 875-6022 | sacsexualhealth.com | sacsexualhealth@saccounty.net

HIV & STD education, counseling/testing, clinical services, surveillance, investigation, reporting, & partner notification. Provider education, training, & technical assistance. Coordination of primary system of care & support for people living with HIV.

Stop Stigma Sacramento Speakers Bureau | (916) 875-7908 | www.stopstigmatasacramento.org

Part of the mental health stigma & discrimination reduction project, "Mental Illness: It's not always what you think." Speakers Bureau members share real, first-hand experience of living with or supporting someone with a mental health condition. Speakers aim to inspire hope, wellness, recovery, & positivity for families & individuals experiencing mental health challenges. Speaking events are most appropriate for middle school and older audiences.

Tobacco Education | (916) 875-5869

Works with the Greater Sacramento Smoke and Tobacco Free Coalition to provide education and resources to the community, including schools. Members of the Coalition's Youth & Young Adult Subcommittee work with youth partners, parents, and schools in Sacramento County.
